

Job Title: Associate Engineer

About Us:

Presidio is a global digital services and solutions provider, driving business transformation through secure, modern IT solutions. Serving 6,600+ clients across 40+ locations with 3,500+ experts, we deliver innovation, efficiency, and growth. Our presence spans India, the US, London, Singapore, Brazil, and Ireland.

At Presidio India, we bring together innovation, technical expertise, and customer focus to deliver impactful solutions.

Role Overview:

We are seeking energetic and talented **Associate Engineers** who are ready to kick-start their careers in technology. This role is designed for campus graduates who are passionate about problem-solving, eager to learn, and comfortable working in dynamic, customer-facing environments.

In This Role, Your Responsibilities Will Be:

- Learn and apply cutting-edge technologies to solve real-world business challenges.
- Work with senior engineers to design, troubleshoot, and deliver solutions.
- Engage with clients confidently and communicate ideas clearly.
- Leverage AI tools and modern platforms to accelerate outcomes.

For This Role, You Will Need:

- Strong fundamentals in computer science, IT, or related fields.
- A problem-solving mindset with the ability to see the “big picture.”
- Good communication and interpersonal skills.
- An outgoing personality with a willingness to engage with customers.
- Curiosity to explore and adapt to emerging technologies.
