Selection Process

Round 1: Written

The Written round consists of two major sections namely Logical and Pseudo Code. The duration of this test is **90 mins**.

Round 2: Short Coding & Review Session

In this round, you will be given a coding assignment. We will evaluate your MMPS skills as well as your logical thinking and the quality of your code. Our recruitment team will assess your approach to problem-solving and your adherence to naming conventions etc.

This assessment is aimed at gauging your technical foundations; we do not anticipate you to be an expert. Our objective is to determine the appropriate level of support and resources we can offer you as a part of the THIRAN Academy.

Round 3: Short Presentation

Selected candidates from Round 2 will be given a topic to present to the panels for 5 to 10 Mins. Preparation time for this round is **30 mins**.

Round 4: Group Project

Selected candidates from Round 2 will be formed as a group to present the system design for the given system requirement. Duration: **15 Mins**.

Round 5: Culture Fitment

We are committed to gaining a deep understanding of you as an individual. Our goal is to uncover your passions and personal values. This process also offers you the chance to explore our organization and the exciting opportunities we offer.

During this round, we will present you with scenarios that will test your ability to handle them and assess if you are the best fit for Thiran.

Round 6: Offer & TA

Welcome to the THIRAN family and get ready for Thiran Academy.
