Education

St. Joseph's College of Engineering

B.Tech Artificial Intelligence and Machine Learning (GPA: 8.18 / 10.00)

Expected May 2027

OMR, Chennai

Meenakshi Ramasamy Matric.Hr.Sec. School

Grade-12th (79%)

May 2022

Intern

Slate Technologies

ML Developer

Dec 2025 – Mar 2026

Bangalore

Labour Attendance Management System

- Built a real-time face recognition system using RetinaFace, ArcFace embeddings, and OpenCV, ensuring accurate face detection and robust feature extraction.
- Implemented cosine similarity with Milvus vector database for scalable and efficient high-dimensional vector-based face matching.
- Construct FastAPI-based ML microservices integrated with Node.js REST APIs, following a microservices architecture for scalable and low-latency inference.

Projects

VPAAS – Voting Process Automation & Analytics | Python, YOLOv8, OpenCV, TensorFlow

- ML-based ballot vote counting system using Computer Vision and OpenCV for automated detection and processing of paper ballot images.
- CNN/YOLO-based models for accurate symbol recognition and vote classification, with preprocessing techniques such as thresholding, contour detection, and image alignment.
- End-to-end pipeline covering image preprocessing, feature extraction, and automated vote aggregation for scalable and reliable election data processing.

Civic Issue Reporting & Management Platform | React, Node.js, MongoDB, REST APIs,

- Designed and enhanced a mobile-first platform enabling citizens to report civic issues with images, location tagging, and descriptions.
- Built a web-based admin dashboard to view, filter, categorize, and prioritize reported issues with interactive maps.
- Developed secure RESTful APIs for issue submission, task assignment, status updates, and media handling.

Technical Skills

Languages: Python, Java

Backend: Node.js, REST APIs

Frontend: HTML, CSS, React.js

ML Libraries: OpenCV, TensorFlow, NumPy

Tools: Git, GitHub

Achievements

- Top 5 position in an **International Innovation Challenge Hackathon** in Jaipur (Rajasthan).
- Won **Project Fest** in SSN college.
- Achieved **First Place at Innovize'24** SKP college (Tiruvannamalai).
- Top 20 in **Smart India Internal Hackathon 2025**, contributing to a national-level team-based problem-solving challenge.

Certifications

- Meta Professional Certificate – Meta Back-End Developer
- IBM – Artificial Intelligence Fundamentals
- Meta – Introduction to Front-End Development
